### Your samples strengthen the health situation in Sweden

The mission of the SVA is to prevent, diagnose and control infectious diseases in animals. The samples you send us are therefore important not only for you, but also for SVA's activities in general. Among other things, they allow us to continuously monitor the health of animals throughout Sweden. Sometimes, it can be in the public interest for us to carry out further investigations on submitted material and to compile sample results for research purposes. Any necessary sharing of information with other public authorities and reporting of results is done without reference to the individual samples, unless otherwise required by Swedish law. If you do not wish your samples to be used as described above, please indicate this on the referral.

### Transparency and Confidentiality

SVA is a public authority and is therefore subject to the principle of free access to public documents and the rules on official documents. By sending us a referral, you can also request that information about the assignment be kept confidential and that information (such as test results) be provided only to you and any recipients specified in the referral. You can find more about this on our website <https://www.sva.se/vi-erbjuder/kop-och-leveransvillkor/>

### Personal data processing

SVA processes personal data in accordance with the General Data Protection Regulation (GDPR). The personal data collected are necessary for the fulfilment of our contractual obligations or tasks in the public interest. Data may be further processed, for example, to investigate the origin, cause and spread of infectious animal diseases and for research and development work.

You have the right to request

- information regarding personal data held about you (extract from the register)
- rectification of inaccurate personal data or erasure of personal data
- restriction of processing or object to processing

Contact details for the data controller and data protection officer, e.g., for requests for extracts from the register, write to Statens veterinärmedicinska anstalt, 751 89 Uppsala, Sweden.

You have the right to lodge a complaint with the Swedish Authority for Privacy Protection about the processing of your data. You can find more about this on our website <https://www.sva.se/vi-erbjuder/kop-och-leveransvillkor/>.
